

NUMERICAL INDEX - DIVISION 020
GENERAL INFORMATION

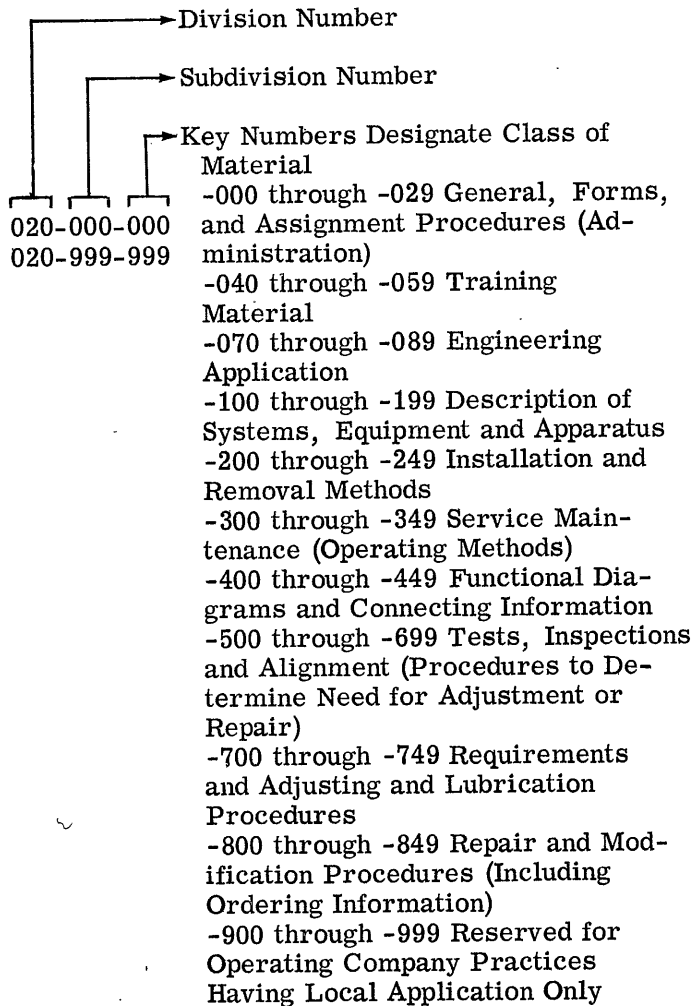

1. GENERAL

1.01 Attached to this Title Page is an index of General System Practices in Division 020. When the index is revised only the attached page(s) will be replaced. THIS TITLE PAGE IS TO BE RETAINED.

1.02 An asterisk (*) indicates an item which has been added or changed since the previous issue of the index.

1.03 "Add." is the abbreviation for addendum, and "App." is the abbreviation for appendix.

1.04 The key to the numbering arrangement follows:

2. NUMERICAL INDEX

2.01 All Sections which have been issued to date, within Division 020 are listed in the attachment by SECTION number, ISSUE number, and SUBJECT.

2.02 The bold-face numbers, appearing in the attachment indicate the division-subdivision numbers (six digits) and their respective titles. Following each six-digit number are the issued Section numbers (nine digits) and their respective titles.

ALPHABETICAL INDEX
TOOLS, APPARATUS, TEST EQUIPMENT, ETC.
DIVISIONS 020 THROUGH 179

1. GENERAL

1.01 This Section provides an alphabetical index of subjects normally used by all Plant and Engineering personnel. Included herein is information about relays, tools, test equipment, and common apparatus. This index covers all Sections in Divisions 020 through 179 that have been issued to date.

1.02 To reduce the number of entries under each subject, only the first six digits have been given. That is, the listings for the last three digits (key numbers) such as Description, Testing, etc., do not appear.

1.03 Once the first six digits of a particular subject have been determined by means of this alphabetical index, a quick glance at the appropriate numerical index will yield all nine digits.

1.04 Duplicate listings and cross-references have been provided where needed.
