

BELL SYSTEM PRACTICES  
Station Installation and Maintenance

ADDENDUM C34.401  
Issue 1, March, 1955  
AT&T Co Standard

## APPARATUS BLANKS DESCRIPTION AND USE

### 1. GENERAL

1.01 This addendum supplements Section C34.401, Issue 4, and is issued to provide information on the 95B apparatus blank.

Add item on page 3 as follows:

Code No.	Finish	Description and Use
95B-3	Black (See Note)	A plastic plate used to cover opening in the housings of 500-, 540-, 550-, and 560-type telephone sets when used for manual service. Equipped with two screws and a clamping plate. (Supersedes the 95A which could not be used with 540-, 550-, 560-, and 592-type telephone sets.)

Change Note on page 3 to read:

**Note:** Normally finished in black, but when other finishes in color are desired, the dash number in the code should be as specified in the section which applies to the type telephone set involved.
