

This index lists the information that forms a part of, or supplements this specification, and indicates the authorized issues thereof.

[illegible]

c—Information in accordance with that currently authorized.

1. GENERAL

- 1.01 This BSRS provides a listing of products, not presently covered by Bell System Repair Specifications, which have been affected by the introduction of the new general purpose color, -49 light olive gray.
- 1.02 This BSRS will serve as an interim specification until these products are included in new or existing BSRSs.
- 1.03 Products shall be reissued in the new colors specified in Table A. ←
Only surfaces exposed to view in service need be refinished.
- 1.04 The finishes used to convert present colors to the new colors shall ←
be in accordance with Table B.
- 1.05 In the case of two-color apparatus, ie, where a shadowed base is of one color and the cover another, only the latter need be refinished.
- 1.06 In the case of apparatus contained within a cover, only the color of the cover need be changed.
- 1.07 When specified by the telephone company, "Multicolor Lacquer" shall be used to refinish apparatus which previously was coated with smooth lacquer, enamel, or wrinkle enamel. It shall not be used over plastisol, textured vinyl, or PVC coatings.
- 1.08 Refinished apparatus shall have the same type of finish (smooth or wrinkle) as the original finish, except as covered in 1.07.
- 1.09 All nameplates and stampings which otherwise might interfere with the uniform color objective shall be eliminated, relocated, minimized, or modified in accordance with the objectives, as outlined in Table A.
