

SMALLEST AND BIGGEST NEW PABX'S IN TOWN

The new, small Norelco EBX 15 handles 5 to 15 lines. All solid-state components and Norelco's unique reed relay give the EBX 15 its small size, and reduces maintenance to an all time low. The Norelco reed relay really works!

The new, big UH 900 handles 150 to 900 lines. . big system capacity with Norelco's famous UH economy.

And for proven service in between, Norelco offers the UH 30/45 and UH 300. All UH PABX's offer common control flexibility and modular expandability. 5 and 10 year studies have proven their reliability. And they include the broadest list of options on the market from KeyTone to Automatic Diction Links.

EBX 15 SOLID-STATE PABX

15 Line Capacity In A Very Small Cabinet.

The new Norelco EBX 15 is a complete line PABX yet measures only 36" x 20" x 9". It can be floor or space-saving wall mounted. Using tiny solid-state components and reed relays, the EBX 15 has a big capacity of 3 links and 15 lines.

With the new EBX 15 you can start with as little as 1 trunk, 1 link and 5 lines. Plug-in cards contain trunks, links and line circuits to expand to full capacity. Plug in cards include optional features too . . . dial "1" or grounding button transfer, toll restriction and a host of others.

The all new Norelco EBX 15 is an easy step up from or substitute for a 6-A Intercom System. Used with or without a turret.

UH 900 FOR MEDIUM – TO – LARGE SIZE INSTALLATION

Easy, Economical Expansion From 150 To 900 Lines.

Norelco's new UH 900 offers the capacity of large size systems with the flexibility and economy that made the small-to-medium UH TYPE PABX's famous. The UH 900 can be equipped as a full Centrex System including DID (Direct-Inward-Dialing) and ANI (Automatic-Number-Identification).

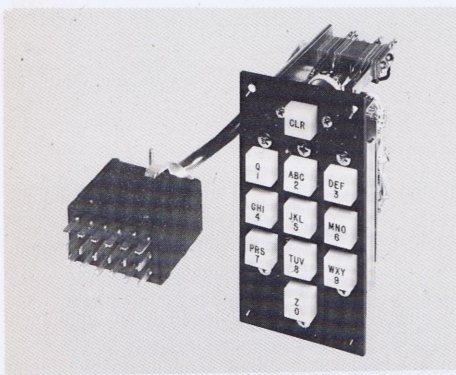

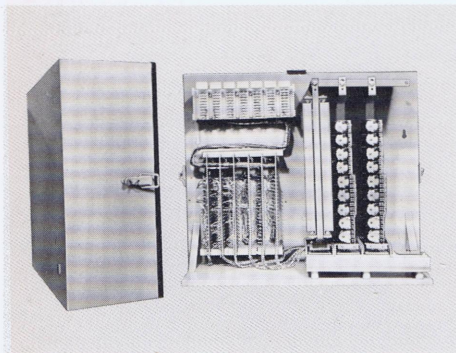

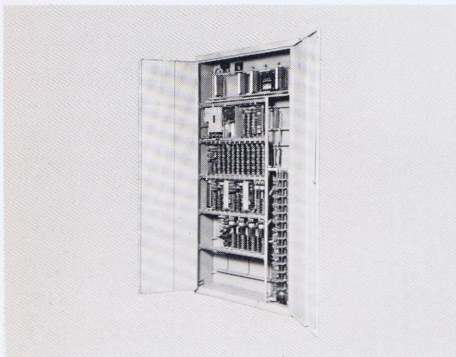

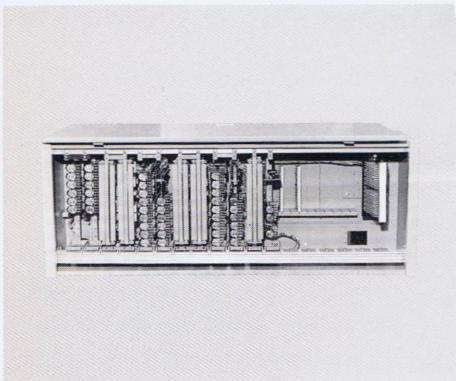

Plug-in modules add trunks, links and lines for capacities of 150 to 900 lines. And remember, only Norelco PABX's are pre-wired to plug-in KeyTone service now or in the future.

Cordless Call Handling, Busy-line Camp-on, Automatic Series Recall and class of service marking are just a few of the standard features. And Norelco offers more optional features such as Group Hunting, Executive Right of Way, Automatic Transfer, Radio Paging, Automatic Dictating and Common Night Answering.

KeyTone™ Service wherever you need it!

KeyTone PABX's and PABX Converters

Norelco UH-TYPE PABX's are the only ones pre-wired to add KeyTone service... now or in the future. Norelco also supplies the KT 100 to convert other types of PABX's - regardless of age or manufacture.

KeyTone Central Office Conversion

CO conversion is simple and economical. Norelco's UPB 800 Converter goes in to your existing step, relay or cross bar equipment. No need to rebuild. Expand KeyTone capacity at will with plug-in modules.

KeyTone Inter-com Conversion

Now the cost of converting 1-A, 6-A or even 16-A inter-com installations to pushbutton is practical. Economical! RM 750 converts tone signals to local signaling and ringing.

KeyTone Toll Board Conversion

The most economical way to convert toll boards to pushbutton is the Norelco 830TB Single Position Converter. It converts type 3, 3CL and all other toll boards plus manual PABX's to high speed pushbutton operation... and does so at 1/2 to 2/3rds the cost of other conversion approaches. One keyset controls both loop pulsing and MFC mode signaling.
