

2564/2565 6-Button Key Telephones

The classical 2564/2565 key telephone is now available from Comdial, combining Comdial's SureTouch™ Tone-Dial®, 6-button keystrip and two-year warranty to serve today's business systems.

2564/2565 6-Button Key Telephones

FEATURES

- SureTouch Dial provides tone-dial service with electronic accuracy, fully enclosed for reliability.
- Built-in polarity guard protects against line reversals. May be disabled by a simple screw-twist switch.
- For use with 1A2 Key Systems.
- 9-foot handset cord.
- Color-coordinated, available in attractive color combinations with neutral color dial pad to enhance any decor.

MODEL CONFIGURATIONS

- TAP™ (Transfer Access Phone). TAP button provides an electronically controlled hookswitch flash to eliminate the uncertainty of manual hookswitch operation. Provides easy access to PBX/CTX features. Hookswitch electronically controlled to provide positive disconnect. (2564 Model)

- Speakerphone Dial equipped with extra set of off-normal contacts to allow proper connection and use with adjunct speakerphone. (2565 Model)
- Manual Exclusion permits temporary exclusion of other extensions on the same line, ensuring privacy. Line is returned to normal when handset is replaced on cradle. (2565 Model)

SPECIFICATIONS

- 5-Line buttons, plus 1 hold button
- Loop current: 20-100 mA
- TAP: 600-700 ms
- Disconnect: 1.5 ms
- Ringer: Straight line, two gong 20-30 Hz
Ringer Equivalence: 0.8 A
- Line Cord: 2564 34-conductor / 50-pin connector
