REPAIR PARTS CATALOG  
FOR THE MAXCOM™ SERIES OF TELEPHONES

TABLE OF CONTENTS

NOTE

A \* symbol is included in the model numbers listed below. It is used to indicate the location of various letters and numbers included in the actual model number found on the telephone set. These letters and numbers denote the various colors and user configurations available in the same basic model of telephone set.

Within the various parts listings contained in this publication, portions of some of the stock numbers include a double "x". This double "x" denotes a color variable. the available colors and their assigned number codes are as follows:

|            |                  |
|------------|------------------|
| -x06 Ivory | -x32 Cocoa Brown |
| -x09 Black | -x50 Charcoal    |
| -x31 Ash   |                  |

| <u>SUBJECT</u><br><u>(MAXCOM MODEL NUMBER)</u>                                                       | <u>PAGE</u><br><u>NUMBER</u> |
|------------------------------------------------------------------------------------------------------|------------------------------|
| 3525D* (Single Line Telephone).....                                                                  | 2/3                          |
| 3525D*B* (Single Line Telephone with TAP Button).....                                                | 4/5                          |
| 3525D*BY* (Single Line Telephone with TAP Button and<br>Message Waiting Lamp).....                   | 4/5                          |
