

IT'S EASY TO DIAL

1. Make sure of the **FIRST TWO LETTERS** and proper **FIGURE** of the exchange name. (See list on reverse side.)
2. Listen for the humming sound before starting to dial. (*If coin telephone, first deposit coin.*)
3. Dial only the **FIRST TWO LETTERS (BLACK)** and the proper **FIGURE (RED)** of the exchange name followed by the **FOUR FIGURES (RED)** of the number.

For example, here's how you would dial **LO** ngbeach **1—0880**: The first **TWO LETTERS** of the exchange name are **L-O**. So you would dial the **BLACK** letters **L-O**, and the **RED** figure **1**, followed by the **RED** figures **0-8-8-0**.

Place your finger firmly in opening where you see the black letter "L" and pull dial all the way around until finger strikes the finger stop.

Place your finger in opening where you see the black letter "O" and do the same as before.

Then dial the **RED** figures **1, 0, 8, 8** and **0** in the same manner. (After each letter or figure is dialed, remove your finger and let the dial return by itself.)

If finger slips, or if busy signal or no answer is received, hang up for a few moments. Then remove receiver and listen for dial tone before dialing again.

Do You Know?

No charge is made if you receive a busy signal or no one answers. (*If coin telephone, coin is returned.*)

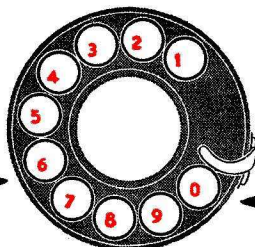

If, after a reasonable time, you do not hear the ring or busy signal, you have probably made a mistake in dialing. Hang up for a few seconds, then remove the receiver and listen for dial tone before dialing again. If you need assistance, dial "O" (Operator).

Some Party Line Hints

After removing the receiver, always listen to make sure line is not busy. If, while dialing, you hear several clicks or other noises on the line, it will mean that another person is trying to make a call.

Courteously tell him the line is in use. Since this interruption has affected your call, you must hang up for a moment. Then remove receiver and listen for dial tone before dialing again.

THE FIGURES ON
THE DIAL ARE RED

HERE IS THE
RED FIGURE "O"

1. LISTEN FOR DIAL TONE (If coin telephone, first deposit coin.)
2. Dial only the FIRST TWO LETTERS (BLACK) and the proper FIGURE (RED) of the exchange name, followed by the FOUR FIGURES (RED) of the number.
NO CHARGE ON CALLS NOT ANSWERED. (IF COIN TELEPHONE, COIN IS RETURNED)
