

# What you'll like about the Trimline<sup>®</sup> telephone:

It rests easily and naturally in your palm. No need to grip it.

Space saver dial is smaller, quieter and easier to turn. And it lights up when you pick up the phone.

The dial comes to you! The whole phone is right there in the palm of your hand.

*Recall* button lets you disconnect a call, get another dial tone, so you can make call after call—no need to hang up.

New, longer cord—one and a half feet of extra usable length gives you more freedom of movement.

The Trimline phone also comes in a beautiful wall model. And because the dial comes to you, it can be tucked away in handy places such as under a shelf or beneath a cabinet.

The dial "hides away" when the phone is on the base.

Won't skid around. Ingenious gripper pads hold the base firmly.

Takes up less than half the space of an ordinary desk phone.

You can change the bell from loud to soft.

Trimline phones are available in a wide choice of decorator colors. To order yours, just call your Business Office or ask any telephone man.

**Pacific Northwest Bell**  
Part of the Nationwide Bell System
