

TELEPHONES ... and things we can't talk about

We at Western Electric don't like to be secretive ...

But at the present time we're working on some of Uncle Sam's newest electronic weapons of defense. Radar systems — guided missile control systems — special military communications equipment — things about which, naturally, we can say little or nothing.

In the past 72 years as manufacturing unit of the Bell Telephone System — Western Electric has developed unique skills and manufacturing techniques that fit us for the important defense work we have been called upon to do. We're going full speed ahead on it along with our regular job. That job is to make dependable telephone equipment that will help your Bell telephone company to serve you well, at the lowest possible cost.

Western Electric

A UNIT OF THE BELL SYSTEM SINCE 1882
