

NUMERICAL INDEX — DIVISION 233
NO. 3 ELECTRONIC SWITCHING SYSTEM (ESS)

1. GENERAL

- 1.01** This section provides an index of System-issued sections in Division 233.
- 1.02** A bullet (●) indicates an item that has been added or changed since the previous issue of the index.
- 1.03** A square (□) indicates a canceled item. Information relating to the cancellation, if necessary, will be shown in a note following the item. Canceled items and related notes will be deleted upon reissue of the index.
- 1.04** A star (★) indicates an item rated AT&T SPCS which contains trade secret information and which is available to authorized addresses only.
- 1.05** A heart (♥) indicates a new or reissued item which, because of its limited need, will not be distributed on standing order except through coded distribution. Additional copies may be obtained by placing regular (one-time) orders.
- 1.06** A solid triangle (▲) indicates a Task Oriented Practice (TOP). These practices, because of their limited need, will not be distributed on standing order except through coded distribution. Additional copies may be obtained by placing regular (one-time) orders.
- 1.07** A spade (♠) indicates an item not on microfiche. This index indicates the latest issue for hard-copy BSPs. In some cases, the microfiche BSP will reflect the next higher issue as a result of the reduced distribution interval.
- 1.08** "Add" is the abbreviation for Addendum.

2. LAYERS

- 2.01** This division is arranged in layers and sublayers as follows:
- 233-0 No. 3 Electronic Switching System — General Description
 - 010 General Information
 - 020 Network Switched Services (Administration and Maintenance) Methods
 - 060 Network Design
 - 1 No. 3 Electronic Switching System (Peripheral Equipment)
 - 100 General System Information
 - 140 Maintenance
 - 150 Software Description
 - 170 Growth Description
 - 190 Feature Documents
