

CS2954AG1-58 TELEPHONE SET

IDENTIFICATION AND MAINTENANCE

1. GENERAL

1.01 This section contains information on the CS2954AG1-58 wall (Fig. 1) DESIGN LINE® decorator telephone (Big Button phone).

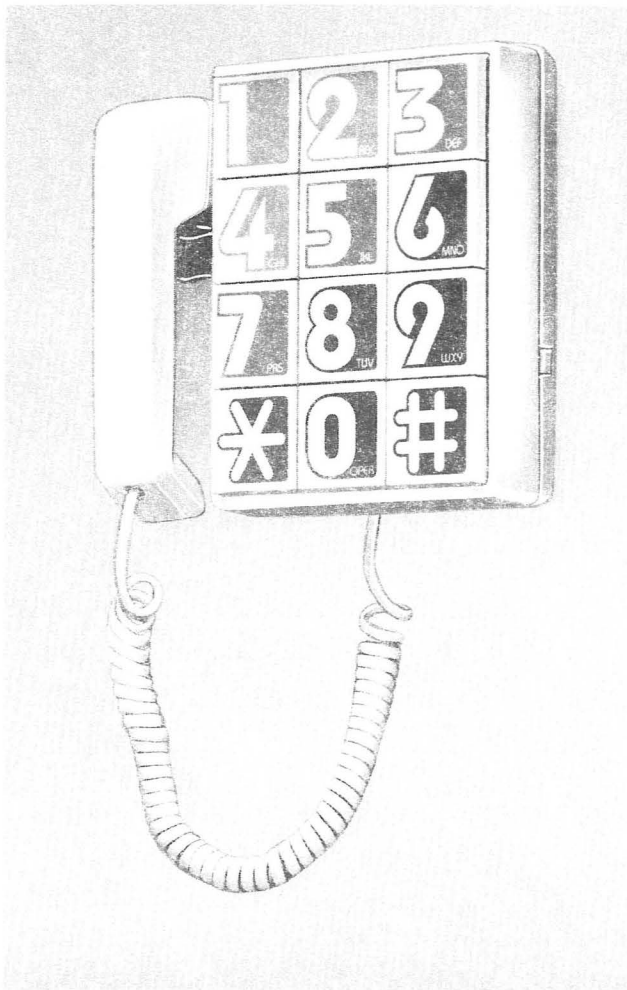

Fig. 1—CS2954AG1-58 DESIGN LINE Decorator Telephone Set

1.02 Whenever this section is reissued, the reasons for reissue will be listed in this paragraph.

1.03 Telephone sets having "CS" (CS2954AG1-58) in their apparatus code do not include telephone company-owned components. They are for sale to the customer in their entirety (the housing as well as the transmission and signaling components).

2. IDENTIFICATION

2.01 The CS2954AG1-58 (white) wall telephone set is a DESIGN LINE decorator telephone featuring a large button dial key pad that occupies the complete top surface of the base. The buttons are imprinted with graphics of four colors that shade in array from yellow to rust. The set contains an electronic dial-network circuit to provide TOUCH-TONE® dialing. It also contains an electronic tone ringer with an on-off control button and is equipped with a N-type handset.

2.02 Refer to Table A for component parts.

TABLE A
COMPONENT PARTS

HANDSET	HANDSET CORD	HANDSET CORD JACK	PLUG
N1A1-58	H4DU-58*	657W	523A

* 12-foot cord.

3. MAINTENANCE

3.01 No adjustments or wiring changes are to be performed on these sets on the customer's premises.

3.02 When it is desired to return a set to Western Electric for repair, it should be packed using an appropriate protective packing material.
