

***“To Make Your Service
Better Still”***

In the past three years, we have extended and improved telephone service faster than ever before. We're trying to do even more.

Every month we're putting \$120,000,000 into new telephone facilities—completing new buildings all over the country—adding 250,000 new telephones in cities and on farms—changing 100,000 telephones to dial—adding 170,000 miles of Long Distance circuits.

So if you're waiting for a new telephone or you'd like individual service instead of a party line or there's something about telephone service you'd like to have made better, we want you to know that we are moving along at a fast clip.

Your needs are very real to all of us and we won't be satisfied until everybody, everywhere, has more and better service than ever before.
