

## Phones You Own

**A. Standard Desk 2500:** Push button true tone dialing for computer banking capability.

**B. Standard Desk 500:** Standard desk rotary, the most reliable phone ever built. *Standard telephone colors are the same as the handset cord colors on accessory page.*

**C. Trendline Desk K2200:** True tone push button or rotary, with a convenient dial in a handset design.

**D. Trendline Wall Push Button K2254:** True tone push button or rotary, with a convenient dial in a handset design.

**E. Standard Wall Push Button 3554:** True Tone. Also Available in rotary.

**F. Miniwall Push Button 2554:** True Tone. Also available in rotary.

Quality and service have made Phones-N-Things your most reliable source for telephones and accessories. We stock and manufacture the finest products available assuring you of continual customer satisfaction.

You'll especially appreciate Phones-N-Things beautiful packaging. Consumer acceptance has resulted in expanding sales everywhere it has been introduced.

For ease of ordering we maintain a toll free telemarketing number, 1-800-826-6810. You can expect 72 hour processing of your order.

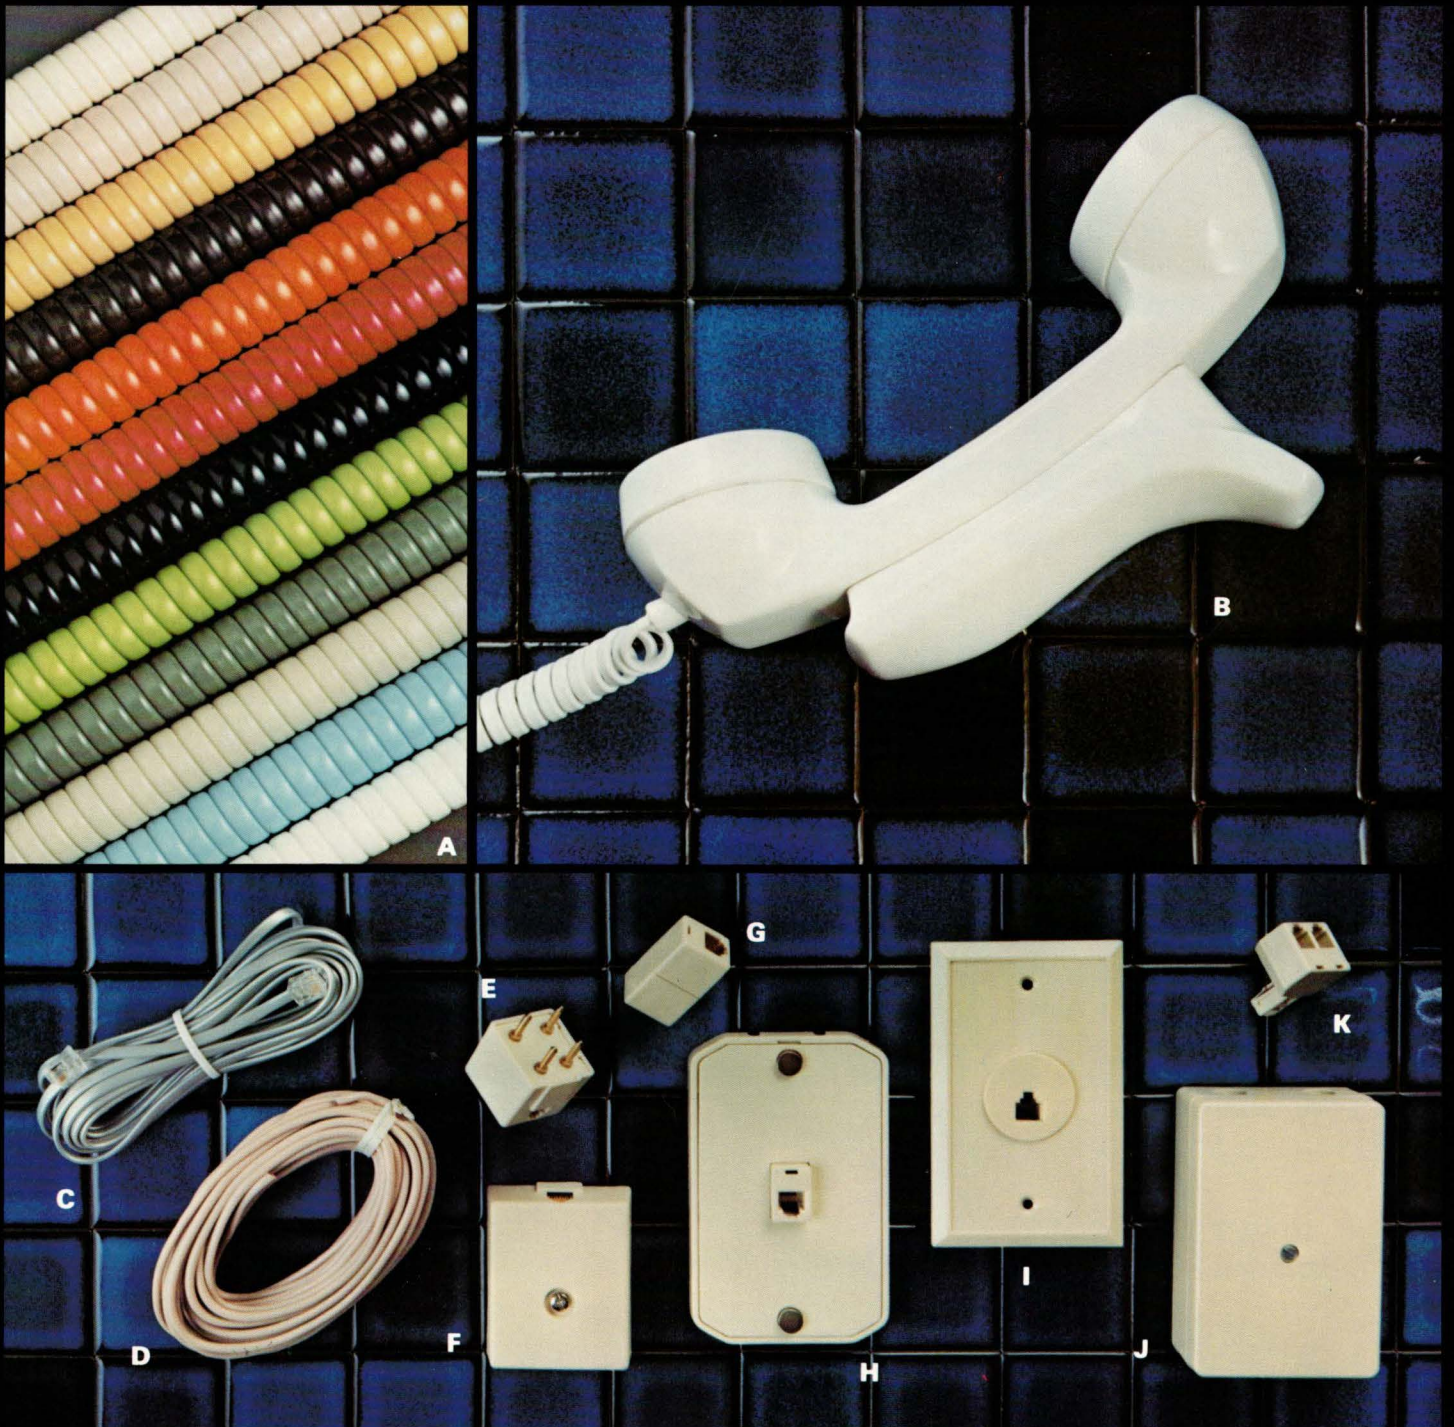

## Paystations

Phones-N-Things paystations are authentic in every detail. They have been converted to home use and do not require coins to operate. They can be used either on a wall or free standing.

# Accessories

**A. Handset Cord:** Modular plug to plug handset cords up to 25' in length. Available in colors to fit every decor. Standard phone and handset cord colors are ivory, beige, gold, brown, orange, cherry, black, lime-green, moss, ash, blue and white.

**B. Soft Phone Rest:** Frees your hands by enabling you to rest the handset comfortably on either shoulder.

**C. Modular Line Cord:** Line cords in a variety of lengths to fit every application.

**D. 4 Conductor Wire:** For connecting jacks to interface unit.

**E. Prong to Modular Adapter:** A conversion from an existing four prong

telephone jack to modular is easy with this plug-in adapter.

**F. Modular Surface Jack Assembly:** Connects and updates old screw-type connectors to modular. Includes connecting block.

**F. Modular Surface Jack Cover:** Updates old screw-type connectors to modular.

**G. Modular Cord Coupler:** Permits a time saving connection of modular plug, plug line cords, T adapters, etc. together.

**H. Wall Phone Jack:** Connects and updates old screw-type connector to modular (surface mount) for mounting wall phones.

**I. Flush Mount Wall Jack:** Connects and updates old screw-type connectors to modular. Fits flush to surface of wall.

**J. GL100 Phone Check:** Here's the answer to eliminating unnecessary and costly telephone service calls. Phone Check isolates the problem in either the telephone company lines or in the home lines. Easy to install indoors or out.

**K. T Adapter:** Permits installation of two line cords at the same jack. The T adapter will also plug into the back of a half or full modular desk phone to allow the connection of accessories such as a single line hold button.

# Answering Machines and Auto Dialer

**A. TAS-1000 Automatic Answering Machine:** An economical answer for people on-the-go. Microprocessor-controlled answering system automatically receives phone calls, announces your message and records incoming messages while you're away from the telephone. Features include call screening, cue and review functions, personal memo plus easy installation with no need for an external telephone adaptor.

**B. MD-3030 Telephone Auto Dialer:** Perfect for anyone who makes frequent use of the telephone. Convenient auto dialer offers memory capacity for 64 16-digit phone numbers, which can be called at a single touch of a button. Busy numbers are automatically redialed once every minute for ten minutes and the "on hook" function allows conversations to take place without picking up the hand set. LCD indication of phone number, time, date and elapsed time for easy confirmation.

**C. TAS-3000 Telephone Answering Machine with Remote Control:** Automatically receives phone calls and records messages. The compact remote unit lets you listen to incoming messages from any phone in the world. Features include unlimited recording time for incoming messages, ring delay, quick erase, message search, call screening, personal memo and calling party control. Flashing LED indicates the receipt of calls.

C

# Cordless Telephones

## Ken-Tech

### A. CP-150 Kentech Cordless Telephone:

Operating range of 700 feet, two-way intercom, privacy lock, battery saver switch, last number redial and flashing low battery indicator.

### B. RP-2600 AM/FM Clock Radio-

**Telephone:** Battery back-up and slide rule tuning.

## FANON

**A. FCT-150:** A cordless phone that is an ideal medium range (300 feet) for use around the house or office. Perfect for most homes, apartments or offices. The FCT-150 has more effective radiating power and greater signal strength for improved noise-free performance. Additional features include call alert, automatic secure, last number redial as well as standard features.

**B. FCT-200S:** A cordless phone that lets you go anywhere in the vicinity of your home. It works like a regular phone but there is no cord to trip over, tangle, or restrict movement. Calls can be carried up to 700 feet from the base station. These phones meet all government regulations and will plug into any regular phone outlet. They are quiet and reliable decorator styled units. Two-way intercom between the Fanonphone handset and a conventional phone plugged into the base. The secure override automatically releases the phone for use by the user's second handset, even when the primary handset is "hung-up" in the cradle. This phone has switchable tone or universal pulse dialing.

# Real Wood Decorators

**A. Woodline II:** Features the same contemporary styling as Woodline I, but the push button dialing is in the base.

**B. Woodline I:** Contemporary styling of handcrafted phones show the beautiful grain of solid oak or walnut. Push button dialing in the handset.

**C. Country House Phone:** Combines nostalgia with modern convenience. The solid oak cabinet and decorative brass bells create old fashioned appeal, yet the convenience is provided by the modern push-buttons and handset.

**D. Crank Phone:** The old fashioned phone provides an authentic look, and has hidden push-button panels for modern convenience.

**E. Clock Phone:** Rustic solid oak clock phone with an exposed push button dial. This is a delightful way to combine clock and phone.

# Business Phones

**A. 2831 - Standard 20 button phone:** A basic and very dependable phone for medium and larger businesses. Capable of handling up to 19 outside lines. The single hold button can hold from one to nineteen calls.

**B. 2830 - Standard 10 button phone:** For medium size businesses this is a very reliable and functional phone. Will handle up to nine outside lines. Has single hold button that will hold up to nine lines.

**C. 2576 - Standard three line phone:** This is an economical phone for small businesses. Has three outside lines and three individual hold lines.

**D. 2584 - Standard six button phone:** One of the most reliable phones ever made. Ideal for small and medium size businesses. Handles up to five outside lines. The single hold button will hold calls on any of the lines.

All of the above telephones are available in either push button or rotary dialing. We have additional phone styles and colors. Please call us if you do not find a particular item on the price list. All remanufactured phones carry a two year warranty.

**A Football Phone** — for the sport enthusiast who appreciates a touch of the game in a den or room. Available in rotary or pushbutton.

**B Phona-Duck** — A unique quality for the sportsman. This authentically designed decoy adds a touch of the outdoors for every sportsman's den or office. Available in rotary or pushbutton styles.

**C Phona-Bass** — This accurately detailed replica of a 12 lb. large mouth bass is a great addition to any fisherman's office or den. The Phona-Bass can be either wall mounted or used on the desk and comes in either rotary or pushbutton.

A message from the general manager

At Phones-N-Things serving our customers is our most important function. This is why we have taken great care in selecting a line of telephones and telephone equipment that you can depend on. Each and every style has undergone thorough testing and evaluation so that you the customer can order from us with confidence. Our experienced order department is here to serve you and to answer any questions you may have concerning any of the fine instruments we carry. You'll find their expertise and their knowledge of the telephone industry is unsurpassed, because telephones and telecommunications equipment is our only business. Plus, you can expect rapid 72 hour processing of your order due to our tele-marketing system. Service is what makes us different and it's what we've built our business on. We take great pride in the many happy, satisfied customers we have had the opportunity to serve over the years. It is our hope that you would like to become one of them.

## Phones-N-Things Ordering Instructions March 1, 1984

### Minimums

Orders placed with Phones-N-Things for one or more items will be invoiced at a minimum of \$50. In addition, when items on one order are drop shipped from suppliers who require minimum order amounts, then those minimums shall also apply. We reserve the right to combine small orders on one shipping ticket, in which case, we will indicate the customer's order number and items associated with that order.

### Order Entry

Orders for equipment listed by catalog number from listed manufacturers should be entered with Phones-N-Things at:

Phones-N-Things  
Spokane Industrial Park  
Building 18  
Spokane, WA 99216  
Toll Free 1-800-826-6810  
WA State 509-926-5293

All orders are subject to standard terms and conditions of sale listed in this catalog.

### Order Status

The Sales Department will be happy to answer all inquiries in a timely manner.

### Terms and Conditions of Sale

#### Payment Terms

Payment terms to buyers of satisfactory credit are: **Net 30 Days from Date of Invoice.**

Delinquent invoices are subject to a service charge of 1½% per month or portion thereof until paid (or the legal maximum allowable in the buyer's state).

Phones-N-Things reserves the right to require full or partial payment in advance.

#### Limited Warranty

Merchandise offered for sale by Phones-N-Things is warranted only to the actual extent of the original manufacturer's warranty. In the event the customer discovers a product to be defective, Phones-N-Things will assist the customer in notifying the manufacturer of such defect. **Phones-N-Things makes no express and/or implied warranties whether of merchantability or fitness for any particular purpose or otherwise**

(except as to title) other than those expressly set forth above, and in no event does Phones-N-Things assume, nor shall it be liable for **consequential or special damages**, or for installation adjustment or other expenses whether direct or indirect. No waiver, alteration or modification of the foregoing conditions shall be valid unless made in writing and signed by an executive officer of Phones-N-Things.

#### Delivery

Deliveries shall be subject to and contingent upon timely receipt of order by Phones-N-Things, together with customer qualification of credit requirements, and Phones-N-Things shall not be liable for failure to meet required delivery when due to credit clearance requirements, or causes beyond its control, including without limitation, unavailability of product from Phones-N-Things source of supply, strikes and other labor difficulty, riot, war, fire, delay or default of common carrier, or other delays beyond Phones-N-Things reasonable control.

Ask about free delivery on orders over \$1,000.00

#### Seller's Right of Possession

In addition to all other remedies, Phones-N-Things shall have the right, for credit reasons or because of buyer's default, to withhold shipment in whole or in part, to recall goods in transit, retake same, and repossess all goods which may be stored without the necessity of taking any other action, and buyer consents that all merchandise so recalled, retaken or repossessed shall become the absolute property of Phones-N-Things, provided that buyer is promptly notified of such action and is given full credit thereof.

#### Risk of Loss; Claims

Merchandise is shipped FOB shipping point and risk of loss due to damage, shortage or nondelivery due to carrier fault lies with the buyer. Claims stemming from discrepancies between invoiced descriptions or quantities and actual product received by buyer due to error of Phones-N-Things must be made within 60 days of invoice date, and failure to make such claim shall result in waiver of any right to make any claim for such error.

#### Product Installation and Operation

Buyer assumes all responsibility for the proper selection, installation, operation

and maintenance of the merchandise purchased from Phones-N-Things. Phones-N-Things **shall not be responsible nor liable for any consequential, contingent, special or incidental damages** whatsoever except as specifically set forth in the Limited Warranty clause.

#### Returned Material

No product or equipment of any kind shall be returned without prior approval and specific shipping instructions from Phones-N-Things. All requests for return of material must be routed to your account manager from Phones-N-Things for a return authorization.

Phones-N-Things **cannot** accept any responsibility for material returned without authorization. **Do not** return material until you receive a return authorization number. Items returned to Phones-N-Things without prior authorization are not accepted by our Receiving Department.

If reason for return is due to overshipment by Phones-N-Things or by supplier's error, credit will be given against the original invoice for the material and shipping.

If return is for other reasons, an appropriate credit will be issued on the condition of the returned materials, handling, repair and inspection costs, restocking charge, if applicable, etc.

When material is received in damaged condition and on-site repair is unfeasible, the merchandise should be returned after appropriate claim action is initiated by the buyer with the carrier. Material will be repaired on a separate order and invoiced separately for your use in processing claim with carrier.

#### Restock Charge

A restock charge will be assessed upon the return of product because of customer ordering error, or when the product has suffered damage while in customer's possession, or late cancellation of order, or when assessed by the manufacturer.

#### Acceptance of Sales Order

All sales are subject to acceptance and no sales are final until accepted by Phones-N-Things Company at its principal place of business: Spokane Industrial Park, Building 18, Spokane, Washington 99216

BLDG. 18 • SPOKANE INDUSTRIAL PARK  
SPOKANE, WA 99216 • (509) 926-5293

# Handsfree telephone headset with amplifier adapter.

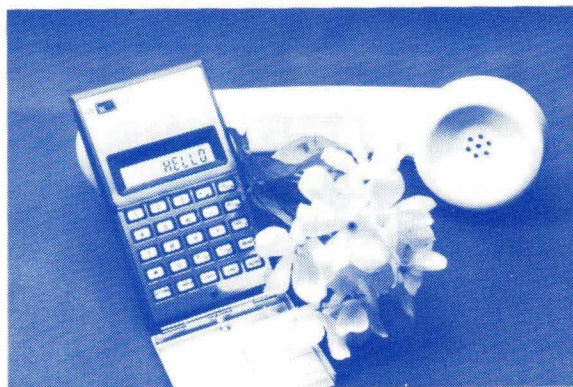

Enjoy the increased convenience, comfort and efficiency of telephone conversations with an ultra light headset. Leaves both hands free for writing, typing, catalog information and pricing, etc.

Gives you superior clarity of conversation with high fidelity-like sound. Received volume is adjustable to higher volume than most standard handsets.

- Built-in mic and receiver amplifier
- High definition condenser mic
- Operates off phone line voltage. No batteries to replace.
- Instant switching between headset and handset.
- Mute switch for private aside conversations.
- Automatic phone line volume surge protection at any setting.
- Lightweight coil cord quickly disconnects for maximum user mobility.
- LED headset use status indicator.
