PLANNING FOR YOUR POST-WAR NEEDS

Incorporation of The Telephone Repair Company (Dec. 1, 1943) is a step in our plans to provide expanded facilities and a larger working force so we can extend the best of service to the Independent telephone industry during the war and in its tremendous POST-WAR rebuilding program. The new name of the company is

TELEPHONE REPAIR COMPANY, Incorporated

SAME ADDRESS • SAME QUALITY WORKMANSHIP • SAME MANAGEMENT

During 1943 we handled the largest volume of business in the 17 years we have served the Independent Telephone industry. In addition to our regular business we have furnished rebuilt telephone equipment to the Signal Corps and to many Independent operating companies for military establishments and we have performed many special jobs for the Army and Navy. In

spite of the constantly increased demands for our services and products we have met the requirements of all our regular and new customers in our usual efficient manner. We are making plans to handle even a greater demand in the future.

Telephone Repair Co. Incorporates

Daniel H. McNulty, president and manager of the Telephone Repair Co., Chicago, Ill., announced recently that the company had been incorporated on December 1, 1943 and that it is now operating under the name of Telephone Repair Co., Inc. He stated the address of the company's headquarters remains the same—1760 W. Lunt St., Chicago (26), Ill.—and that there would be no changes in management.

Mr. McNulty stated that the company was incorporated in order to provide adequate financing to expand the company's facilities to meet present and post-war demands for its products and services.

Mr. McNulty organized Telephone Repair Co. in 1926 after having spent 23 years in telephone work. He started his telephone career with Western Electric Co. in 1885, remaining with that company for a few years. Up until World War I, he was associated with Bell and Independent operating companies in plant super-

visory capacities, and at one time was foreman of submarine cable installation in the Puget Sound area for the Pacific Telephone & Telegraph Co.

He entered the Signal Corps at the outbreak of the first World War, going overseas as wire chief of the First Army Headquarters. He was in two major engagements—the Marne offensive and Argonne drive. After leaving the Army, he became associated with the Premier Electric Co. and remained with that company until forming Telephone Repair Co., the headquarters of which have grown from a one-room garage to a plant with 15,000 square feet of floor space, most of the expansion taking place within the last eight years.

Bell Man Awarded DSC for Heroism

Lt. Lewis N. Ellis of Chattanooga, Tenn., former office manager for the Southern Bell Telephone & Telegraph Co. recently was awarded the Distinguished Service Cross, the second highest Army valor award for "distinguished service" he and his Liberator group made in low-level bombing on the Rumanian oil fields at Ploesti in August, 1943.

The award was presented by Brig. Gen. Edward Timberlake, commanding general of a Liberator bomb wing "somewhere in England." Lieutenant Ellis also holds the Air Medal with three oak leaf clusters.
