"There is Nothing Finer than a Stromberg-Carlson"

TO HOLDERS OF STROMBERG-CARLSON TELEPHONE CATALOGS:

We enclose a new set of Yellow price pages for the Supply Section of your Catalog. This section has been delayed considerably awaiting the Ceiling Price Regulations as they have been gradually developed by the O.P.S.

To the best belief of ourselves and our suppliers, the enclosed price sheets reflect accurate, up-to-date prices which are in compliance with appropriate governmental regulations. They are, of course, necessarily subject to change without notice, but we hope and feel that they will be applicable for a long enough period to be of real assistance to you in your planning and ordering.

Note that the Blue price sheets covering equipment are not being replaced at this time.

Please bear in mind that our deliveries, as well as our prices, are subject to governmental regulation. N.P.A. Order M-77 is the principal regulation covering delivery priorities for the Telephone industry at this time. We realize that you are familiar with this regulation and ask that you bear it in mind when ordering; and that you extend the proper priority rating to us, whenever possible, at the time you place your orders.
