LINE AND CABLE PLACING HANDBOOK

LINE AND CABLE PLACING HANDBOOK

ALPHABETIC INDEX

ALARM	
Cable Reel Pressure — Description and Use	081-310-106
ANCHORS	
Anchors and Rods — Description and Installation	621-610-100
Rock — Description and Installation	621-610-204
ARRESTOR	
Type 222 — Installation	605-200-202
BALCONY	
Terminal, B — Description and Installation	631-221-200
BLOCK CABLE	
Corner, Four-Roller — Installation	627-200-216
BRACKET	
Hanger Kit — 100MB and 200MB Closures — Installation	602-100-206
Lines — Installing Deadends	621-501-201
Wooden Pole —	
Corners — Installation	621-501-202
Description	621-501-100
Straight Sections of Line — Installation	621-501-200
Transpositions — Installation	621-501-203
CABLE	
Aerial —	
Block and House	
Cable Placement — Outside Walls	627-300-202
Locating Cable Runs	627-300-200
Placing Riser Cable — Riser Grips and Strand Supports	627-300-203
Wall Attachments — Anchoring Devices	627-300-201
Cable Supports and Spacers — Description and Installation	627-201-200
Lashed — Direct Lashing Method	627-200-202
Mechanical Protection	627-200-208
Placing in Buildings	627-300-204
Placing Figure 8 Alpeth Cable	627-200-210
Suspension Strand Selection and Tensioning	627-100-200
Alpeth —	
Filled ASP-GPF Sheath Cable — Description and Reel Length	626-100-118
FPA Sheath — Description	626-100-101
FPA Sheath — Figure 8 — Description and Reel Lengths	626-100-109
FPA Sheath — D-Shielded, Filled and Non-Filled — Description	626-100-116
FPA Sheath — T-Screened, Filled and Unfilled	626-100-114
Bonding and Grounding — Joint and Non-Joint Construction	605-100-100
Buried —	
Cable and Wire — General	629-000-100
Cable and Wire — Precautions	629-100-105
Exchange — Distribution and Service Wire — Placing	629-100-200
Joint — Installation	629-100-202

Alphabetic Index (Continued)

CABLE (Continued)

Joint — Maintenance/Emergency Safety Precautions	629-100-300
Signs — Description and Installation	629-100-220
Extension Arms — Installation	621-500-202
Lashing Cable Without Spacers and Supports	627-201-202
Lashing Second Cable — Cable Block Method — Installation	627-200-217
Locating Supports and Spacers	627-201-201
Optimized Direct Buried Cable Delivery System	629-100-203
Polypic — Multiple Pair — Placing	601-250-200
Prefashed —	
Moving Vehicle Method — Installation	627-200-214
Permanent Pole Attachments — Installation	627-200-215
Prelashing Equipment — Installation	627-200-212
Stationary Reel Method — Installation	627-200-213
Self Supported — Slack Span — Installation	627-100-207
Slack Span Construction — Installation	627-100-206
Stalpath Sheath — Description and Reel Lengths	626-100-108
T-SCREEN,® Extended, Filled and Unfilled	626-100-119
Underground —	
Installation Precautions	628-025-011
Placing Cable in Main Conduit — Installation	628-100-201
Placing Cable in Subsidiary Conduit — Installation	628-101-200
Placing Loading Coil Cases — Installation	628-150-200
Removal	628-300-200
Sealing Compound and Rubber Conduit Plugs — Installation	628-020-202
Testing and Ventilating Manholes — Procedures	628-025-016

CABLE SPLICING

Cable Caps —	
Neoprene — Sealing Cable Ends	632-020-106
Q-Seal — Description and Installation	632-020-110
Splicing Polyethylene Conductors — Using UB, UR, UG, ULG, and UY Connectors	632-100-202

CASES

Loading Coils, Building-Out Capacitors, Lattice Networks, MF Units, and Saturable Inductors — Installation	626-300-200
Loading Coil — Type 700 — Description and Installation	626-300-102
Locating Supports and Spacers at Load Cases	627-201-203

CLAMP

Cable Lashing — Aerial	627-305-204
E Drop Wire — Drop and Block Wiring — Description and Installation	600-200-208
Reliable Electric PS-6 and PRS-6 — Drop and Block Wiring — Installation	600-500-200
Strand Attachments — Span — Drop and Block Wiring	600-550-200

CLEARANCES

Attachments for Aerial Crossing — General	604-119-011
Drop and Block Wiring — Pole-to-Building Spans and on Buildings — Separations	604-110-011

Alphabetic Index (Continued)

CLEARANCES (Continued)

- For Telephone Cables, Guys, Line Wires, and Drop Wires in
 - All Loading Areas 604-100-012
 - For Telephone Poles and Stubs 604-100-011
 - Joint Use Illustrations 604-105-015

CLEARANCES AND SEPARATIONS

- For Aerial Plant — General 604-020-011
- For Block and House Cables — In or On Buildings 604-106-011
- Joint Use — General 604-105-011
- Joint Use — Separation in the Span and at the Pole — All
 - Loading Areas 604-105-012

CLIMBERS

- Lineman's 075-155-200

CLOSURES

- Ready Access —
 - Cable Supports and Spacers — Installation 602-100-205
 - Figure 8 and Lashed Alpth Cable — Series 200MB — Installation 602-100-203
 - Figure 8 Cable — Type 100MCX — Description and Installation 602-100-204
 - Series 430 — Description and Mounting 602-100-207
 - Series 500MB — Description and Installation 602-100-202
 - Terminal Blocks, Loading Coils and Inductors in — Installation 602-125-200
 - Type "Y" Branch Kit — For Use with Type 100MB Closures 602-100-201

COLLAR

- Reel Locking — Huml Brothers 1970 — Description 075-336-100

CONDUIT

- Conduit and Manholes — Precautions 622-025-010
- Plastic — Replacement and Repair 622-105-301
- System — Blower/Vacuum — Jetline Model AM 200-CG —
 - Description and Use 075-602-100
 - Types and Uses — Description 622-020-100

CROSSARMS

- Carrier — Description 621-500-101
- Deadends — Installation 621-500-201
- Equipping — Installation 621-500-203
- Exchange — Description 621-500-100
- Installation — General 621-500-200

DAMPER

- Aerial Cable — Wright Damper Company No. 77777 —
 - Description and Installation 627-295-206

DRIVER

- Stake 081-218-100

DROP AND BLOCK WIRING

Binding Post Caps and Insulators — Protection of Special Service Lines	600-750-200
Block Wire Runs	600-200-207
Building Attachments — Description and Installation	600-200-206
Buried Service Wire — Description and Installation	600-200-215
Drop Wire Attachments —	
Low Buildings	600-200-205
Trailer Courts and To Auto Trailers	600-775-200
Drop Wire Building Runs	600-200-204
Drop Wire Runs — Pole-to-Pole and Pole-to-Building Spans	600-200-200
General	600-020-011
Placing and Replacing Drop Wire — for Voltages Less than 300 Volts	600-200-202
Placing and Replacing Drop Wire for Voltages of 300-750 Volts	600-200-203
Pole Top Extensions — Guard Arms and Clearance Arm Attachments — Installation Instructions	600-550-225
Preventive Maintenance	600-200-300
Removal and Disposal of Wires and Attachments	600-850-200
Repair and Maintenance	600-200-301
Sags and Span Limits	600-300-200
Splicing — Installation	600-400-200
Tree Attachments — Installation	600-200-201
Tree Interference	600-750-205
Wiring at Cable Terminals — Aerial and Block	600-600-200
Wiring from Open Wire in Non-Corrosive and Corrosive Areas — Split Tap Sleeves	600-650-200

DYNAMOMETER

Series, Dillon Type "AN" — Description and Use	081-204-100
--	-------------

GAS DETECTION

Safe Working Methods —	
Use of GT-30 Gas Testing Kit	603-051-014
Use of J-W Gas Indicator Test Kit	603-051-012
Use of Model 2A Explosimeter	603-051-013

GLOVE, RUBBER

Linemen's Rubber Gloves and Blankets — Description, Use and Care	075-190-100
--	-------------

GRIPS

Strand and Wire — Description and Maintenance	081-330-100
---	-------------

GROUNDING

Assured Equipment Grounding Conductor Program	075-001-300
---	-------------

GUARD

Buried Cable and Wire — Installation	629-100-205
Cable at Riser Poles and Buildings — Installation	628-100-202
Guy — Installation	621-610-208

GUARD (Continued)

Ladder — Description and Use	075-225-105
Noise — Model 2030 — Description	075-677-100
Pedestal Integrity	631-030-200
Squirrel — Installation	627-200-209

GUIDE

Corner Cable — Installation	627-200-205
3-Roller, Cable — Description and Use	081-200-100

GUYS

Cable Lines — Installation	621-610-203
Open Wire Lines — Installation	621-610-202
Poles and Rods — Attaching	621-610-201
Sidewalk — Installation	621-610-205
Strand Wrap Method — Installation	621-605-205
Use of Strandvise	621-605-206

HOIST

Chain — Description and Operation	081-215-100
Electric — Chance Model C-750 — Description and Use	081-216-100

HOUSING

Protector — Outdoor — Model TII-421	631-600-212
Repeater — GTE Lenkurt 91A PCM — Installation	631-863-200
Terminal —	
Buried Plant —	
Cable Capacity	631-600-100
Warning and I.D. Decals	631-600-207
YELLOW JACKET TM — Cable Placing	631-600-208
Cross-Connect —	
Location of Splice — Aerial Installation	627-202-201
Model XC-7	631-600-210
Types BF, BG, BH, and BJ — Description and Installation	631-220-200
Types D-1E, D-2E, D-3E — Description and Installation	631-602-200
Types GHC-4 and GHC-6 — Description and Installation	631-600-206
Types 218, 224-A, 238, 262 — Description and Installation	631-601-200
3M/MS ² ® Types 4080, 4082, 408HD and 4086HD —	
Description and Installation	631-600-211

INSULATOR

Open Wire — Description and Use	623-225-100
---------------------------------------	-------------

INSTRUCTIONS

Accounting — Function Code Telephone Plant — Instructions to	
Employees	001-000-001

KIT

Trailer Light — Description and Use	081-240-105
---	-------------

Alphabetic Index (Continued)

LADDER

Extension — Description, Use, and Maintenance	075-225-100
Fiberglass — Extension — Description	075-225-101
Manhole — Portable — Description and Use	075-225-102

LASHER

Cable — Model F — Description, Use and Maintenance	081-230-101
--	-------------

LOCATOR

Buried Cable — Radar Model 110 — Description and Use	106-210-101
Pipe — TR/4 — Description and Operation	106-210-100

MANHOLES

Covers — Removing and Replacing — Safe Working Methods	603-050-010
Covers — SAFE-T-LIFT TM — Description and Use	081-210-100
Hardware	622-500-204
Manholes and Pull Boxes — Numbering	622-508-200

MARKING SYSTEMS

Surface Facilities	081-180-101
--------------------------	-------------

MOULDING

Plastic — Ground Wire Protection — Installation	605-200-211
---	-------------

POLE

Braces and Footings — Installation	621-100-206
Facing — Installation	621-100-203
Framing — Installation	621-100-205
Hole Digging — Installation	621-100-201
Measuring Pole — 25 Foot — Description, Use, and Maintenance	075-520-101
Numbering and Identification — Installation	621-190-200
Pike Poles — Description and Use	081-557-100
Pole Rake — Installation	621-100-204
Removal	621-400-200
Resetting and Removing Butts — Pole Lines	621-300-300
Setting — Installation	621-100-202
Steps — Installation	621-101-200

PROTECTION

Eye	075-676-100
