

N1717AP

Diagram illustrating the wiring for the N1717AP circuit, showing connections for various components and terminals.

Components and Connections:

- BIX RINGER:** Connected to the circuit via WHITE and RED wires.
- NI43YX SWITCH HOOK:** Connected to the circuit via WHITE and RED wires.
- 195AH COND.:** Connected to the circuit via BLACK and RED wires.
- 0.4A IND. COIL:** Connected to the circuit via BLACK and RED wires.
- BATTERY:** Connected to the circuit via BLACK and RED wires.
- 418N GENERATOR:** Connected to the circuit via BLACK and RED wires.
- Resistors:** 63 KN RES, 85 MF, 1 MF.
- Capacitors:** 195AH COND.
- Switches:** X, Y.
- Wires:** WHITE, RED, BLACK, YELLOW, GREEN, SLATE.
- Terminals:** CND, LINE 1, LINE 2, C1, C2, BK, BATT.
- Other Labels:** BLACK (TRANS), RED (COMMON), WHITE (REC), SH TYPE DIAL.
